NOTE-

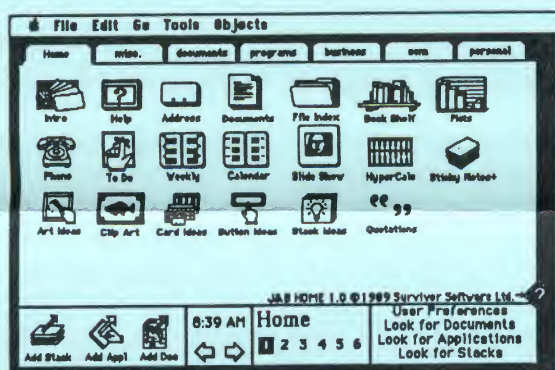

On-line Help showing the information on a note card created as a NOTE.

POST-

A POST note area attached to a card in a stack.

Home Card of the J&B Home Stack.

Sticky Notes+ is a trademark of Survivor Software Ltd., HyperCard and Macintosh are registered trademarks of Apple Computer, Inc.

What Is Sticky Notes+?

Sticky Notes+™ is a HyperCard® stack which allows you to create two kinds of notes attached to other stacks to help you expand your memo area or to help you find references quickly.

Main Features

- Create notes that are note cards in the Sticky Notes stack for special references to cards in other stacks.
- Quickly go directly to the card referred to by a note card.
- Track created and modified time and date automatically on each note card.
- Create post notes that are a pop-up field for more text room on any card in a stack.
- Select the font for post notes.
- On-line Help.

What Is J&B Home?

J&B Home is a HyperCard® Home Stack replacement which helps you better organize your stacks, applications, and documents for faster access.

Main Features

- Organize stacks with a file folder analogy (see Home Card at lower left).
- Organize applications into groups of your choosing.
- Associate data files with applications for faster access.
- Current time displayed for reference.

Hardware/Software Requirements

Macintosh Plus minimum
HyperCard 1.2 or better
